### "Fruit-a-tives", or Fruit Liver Tablets Gave Relief

885 GRANT ST., BUFFALO, N. Y.  
"I have been Paralyzed on the whole right side since April 30th. I referred the case to a physician who wrote me, advising the use of 'Fruit-a-tives'.  
I would not be without 'Fruit-a-tives' for anything; no more strong cathartics or salts; no more bowel trouble for me.  
I recommend 'Fruit-a-tives' to all. I feel more like 40 than 62, which I have just passed".

## CARE OF THE HAIR

The best thing to make your hair soft, thick and glossy—Parisian Sage. W. L. Gokay sells the genuine that does not change the natural color of the hair.

SPINE OF MAN

## "Make Good or Make Room"

This has been called "The Tragedy of Progress." A business man or a business woman in this Twentieth Century must do one of these two things, i. e., "Make Good" or "Make Room" for someone else. There is no happy medium.

To make good in your business ventures, in the service you render your employer, in your home-life, and among your neighbors—YOU MUST BE HEALTHY.

To be Health, you MUST POSSESS A NORMAL SPINE.

All medical men who are liberal minded and not blindly prejudiced, all scientists and, above all, all people possessing common sense now admit that the spine is the keystone of the human body; and that if it is out of alignment (in other words out of line), there is bound to be a pinching of the nerves which will prevent the vital force from flowing uninterruptedly to the various organs. The result is so-called disease of those organs which are not receiving their proper quota of life force.

The competent chiropractor is a spine specialist. He palpates the spine carefully and ascertains exactly where the vertebrae (small bones) are out of line (subluxated). Using his bare hands alone he, by means of Chiropractic Vertebral adjustments, puts these vertebrae back in line. The nerve pressure is thus relieved, the life force flows freely to the organs involved and HEALTH IS THE RESULT.

Don't wait until you are "all in, down and out" before consulting a chiropractor, but at the first sign of danger (slight though it may be) ask for a SPINAL ANALYSIS. If it is found that your spine is out of alignment, take CHIROPRACTIC VERTEBRAL ADJUSTMENTS as often as your chiropractor deems necessary and you will be healthy and will "MAKE GOOD."
